Subject - Regarding the grant of lands for building purposes in Malnad —

Last Reference - Letter No 853 of 28th March 1896 from the Dy Commr, Hassan District.

In requesting Sanction to the grant for building purposes, of certain lands allotted for Soppinbetta and Muf-fat grazing purposes in the Thirthalli Taluk, the Dy Commr Shimoga District suggested the investiture of Dy. Commrs with power to Sanction applications for the grant for building purposes, of small areas of Soppinbetta, Mufat grazing and Kharab lands, on the ground that village sites were not generally allotted at the Survey Settlement

in Malvan Taluka, that applications for the same were frequently received & that the inspection of the proposed power to the Dy Comm^r would save constant references to the Office. He further suggested that in all such grants might be subjected to a proviso that the Sites should be surrendered without objection or claim for compensation, if Govt should at any time require them

2. With reference to the General question, it was observed that Govt Sanction was not necessary to grant Kharab lands not specially reserved under Section 39 of the L.R. Code, that in the case of lands set apart under that Section, the powers of granting them could not be conferred on the Dy Comm^r, unless the provisions of Sections

section 4, the Director of Forestry such lands may be conferred upon the Revenue Courts or other Courts above the rank of Revenue Courts, but not upon the Revenue Courts. The Forest Recommendation thus necessitates an amendment of the law as contained in sections 4 & 39.

Subd 3 Forest Act

Section 4 of the Forest Act empowers the Local Government to declare any land to be reserved forest. Section 39 empowers the Local Government to declare any land to be protected forest. Section 4 provides that the rights of private persons in the land shall be settled before the land is declared reserved forest. Section 39 provides that the rights of private persons in the land may be settled before the land is declared protected forest. Section 4 provides that the Forest Settlement Officer shall have the powers of a Civil Court for the purpose of settling rights in land proposed to be declared reserved forest. Section 39 provides that the Forest Settlement Officer shall have the powers of a Civil Court for the purpose of settling rights in land proposed to be declared protected forest. Section 4 provides that the Forest Settlement Officer shall have the powers of a Civil Court for the purpose of settling rights in land proposed to be declared reserved forest. Section 39 provides that the Forest Settlement Officer shall have the powers of a Civil Court for the purpose of settling rights in land proposed to be declared protected forest.

4 and 39 were amended, so that the present practice might be continued, pending final decision of the question. The Dy Comm^rs of Kaira and Hassan were, at the same time, requested to report whether any modification of the existing law was necessary.

2. The Dy Comm^r of Kaira is of opinion that no modification is necessary, as he has power to grant permission to erect such temporary houses on Govt unassessed waste lands, provided they execute such a bond as that they would give up the lands built upon without compensation, if they are eventually required for other purposes in future.

4. The Dy Comm^r, Hassan states that in the malnad parts, Dy Commrs may be empowered to grant

Please see Subject No. 75 of the D. A. Assembly Proc^gs of 1891. (Paper No. 2), referred to in the Comm^r's letter No. 454 of 20/12/95 (Paper No. 5).

6. In the proposal made by the Dy Commissioner of the Shemoga District, there is no limit as to the powers to be exercised by him in regard to the allotment of ~~the~~ lands assigned for Special purposes under Section 39 of the Land Revenue Code, while the Dy Commissioner of Hassan proposes to restrict his powers to the grant of 2 acres of land, Mr. Spunkie's proposal, to which the Dewan had no objection, being to allow the construction of ~~houses or huts~~ temporary huts within a limit of 10 guntas only.

7. The condition as to the grant in all cases being the same, viz, ~~that~~ the occupant should surrender the land whenever required by Govt without any claim to compensation, the point for consideration is whether in the event of

In the case in question,
the un assessed waste land

Comunal purpose no doubt
but the Rev. Dept. did not
recognize it as such. Hence
it is sold in Kulbanni an-

The Dy Comr. requires
the land to be added on to

the Dy Comr. could do so

But what is really required is to set apart newly for a Communal purpose a bit of land (un assessed) which has been all along commonly enjoyed by the villagers.

Putting a liberal construction upon it, the matter may be viewed as one in which the existing village site is found insufficient and the DC's authorises his discretion of it on his own authority.

Summary of decision — It is
hereby necessary in these hard-
ned cases that subsidiary rights
and the Tribunals should give
way to the needs of public
or general or Christian needs alone
by. In certain villages there are
not more than 10 houses and even
the people living in them prefer
live place to their lands marked
of on the allotted village site for
fear in their absence of damage
to their crops by wild beasts. There-
fore we request permission to build
houses and sheds and to have
threshing floors and manure
pits on any land other than
occupied lands without the previous
sanction of local officers.

Note - In the Official Communi-
cation a relaxation may be made
in the case of married women. There
are cases in which married build
temporary sheds and huts, as also
cases in which they build perma-

Rivers. The Latter being very fear, the previous Sanction of Government should be obtained. With regards the former permission to build on unappropriated lands without securing previous sanction may be given for the area occupied should not in each case exceed say 10 yards, and it should be understood that if the land is required for Government purposes the occupants will be liable to be removed after due notice without compensation.

Answer reply:— There can be no objection to permitting the Construction of temporary Houses in the manner directed. The usual orders existing rules to the contrary should be upheld.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 10th July 1890.

READ:—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Government of Mysore, No. 119, dated 2nd June 1890.

I have the honor to bring to notice that the strict enforcement of Section 39 of the Mysore Land Revenue Code in so far as it provides that lands set apart for the free pasturage of the village cattle shall not be otherwise appropriated or assigned *without the sanction of Government* is likely to be productive of much inconvenience.

Applications for the whole or for portions of Survey numbers, constituting lands set apart for free pasturage, are exceedingly numerous and have hitherto been promptly disposed of by the Deputy Commissioners after reference to the Survey Superintendent as regards the assessment to be imposed.

2. Section 4 of the Land Revenue Code provides for Government conferring upon the Revenue Commissioner or other officer above the rank of Deputy Commissioner the necessary powers (see Schedule 1, Section 39). I presume that, as the matter is urgent, and there is absolutely no necessity for Government being burdened with the details of applications of the kind in question, the necessary power could be conferred upon Deputy Commissioners. I submit the question, however for consideration, as the Mysore Land Revenue Code does not specifically provide for the difficulty I have brought to notice.

No. 3442-50—CIR. 60, DATED 10TH JULY 1890.

ORDER THEREON.—The Government are not disposed to empower the Deputy Commissioners to allot for cultivation lands assigned for free pasturage without reference to Government. There is plenty of land other than that assigned for free pasturage available for cultivation and the Government do not think it proper to diminish the free pasturage and give it for cultivation unless there is absolute necessity for the same.

Sir,

I have the honor to solicit sanction of Government for granting the following applications.

(a) One Seshappa of Nautur in the Sirthalli Taluk has applied for 450 square yards of land for building purposes out of Survey No 40 measuring A. 4 G. 41 — 33 allotted for Soppinkatta and Kupat in the Balehalli village of the said Taluk.

(b) One Sivappa of Kolgi in the same Taluk has applied for 450 square

yards of land for the same purpose out of Survey No. 116 measuring ac 8 53 - 21 allotted for free grazing in the village of Kolgi.

2. The villagers in both cases have no objection to the grant of the land in question, and the Amildar also recommends that the land may be granted. These applications are referred for the orders of Government as under Section 39 of the Mysore Land Revenue Code, lands of the kind cannot be granted to applicants without the previous sanction of Government.

are visited with grass, applications are frequently received for grant of building sites out of Government Khairaba and Kharal lands and con- stant references have to be submitted to Government for sanction. As a rule such sites have no saleable value and excite no competition, and as the boundaries of Kharal grazing and Khasra lands are extensive and as sites of small area only are generally applied for, the villagers also do not object to the applications being granted. Under these circumstances, I think it would save unnecessary correspondence and delay if Deputy Commissioners are em- powered to sanction such ap- plications, and beg to suggest that

that at least in all cases in which there is no Caveat from the Villagers the Deputy Commissioner may be vested with such power. I may add that in all such grants a clause is inserted that the sites should be surrendered without objection or claim for Compensation if the Government should at any time require them.

cleanpaled tank. this defect in the existing law - this cause prominently to notice. In the Malwad a certain classes of people keep shifting their dwellings to use a more agricultural term, their huts from year to year, partly from superstitious prejudices and partly from convenience of cultivation of land which they keep changing. Again a man owning land at some distance from his habitation tends a little shed near the land to be cultivated. Instances of this kind are very numerous. The parts of the plains, where there is much pressure for land, do not apply to certain Malwad parts, where only to large extents of land distance of cultivable land from houses and other circumstances, people are under the necessity of building sheds on Gunal lands. Hence the recommendation made at the end of para 1 of this communication.

Sir
I have the honor to submit herewith vernacular correspondence ending with the Shanuraghatta Circuit Officer's report no: 838/745 dated the 19th ultimo and an alienation statement for adding survey no: 15 of the Kerisave Village to the village site.

2. The land in question is claimed by the villagers and measures 29 guntas. During the Survey & Settlement the grazing of the land was ordered to be sold every year, though the villagers were in the habit of cutting their straw on it for many years previously.

3. Kerisave is a thickly populated village and much inconvenience is felt by the villagers owing to the land being subjected to sale every year

and they are thereby deprived of the use of the site for erecting their stores & there is no other suitable place for them for the purpose, I request a caveat for alienating the same.

Intimate that Hearing

Unassessed land sold annually for Melvaram is proposed to be added to the existing village site.

Such land can be given out for Cultivation and in addition, the Purchaser need not solicit the Order of Govt. But the present proposal is to extend the Village site.

The Extent involved is small.

May the Proposal be Recommended to Sanctioned?
